### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The prior art fails to show or fairly teach a piston compressor which uses gas bearings with a nozzle located on the cylinder wall and facing the piston, which contains a compressed gas accumulator for the bearings and a valve which is piston position dependent to feed the accumulator and thus the nozzles of the bearings. Webster's New World Dictionary (Third College Edition (c) 1988), defines a nozzle as " a spout at the end of a hose, pipe, bellows, etc., by which a stream of liquid or gas may be directed and controlled". Beale shows nothing at any outlet that directs or controls any fluid.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William C. Doerrler whose telephone number is (571) 272-4807. The examiner can normally be reached on Monday-Friday 6:30-4:30.
